SPORTS & ATHLETICS

Sports are a vital part of the community at BASIS Independent Silicon Valley and allow students to grow the ever-important skills of working on a team and of confronting the ups and downs of competition with grace and humility. We match our hard work in the classroom with what we do in the field and on the court.

In all of our years as a learning community, sports have continued to remain a high priority and major interest for our students. Our dedicated Auxiliary Programs department has gone above and beyond in developing an array of exciting sport and team offerings that allow our incredible Bobcats to test their skills against local Bay Area independent schools.

CLUBS & ACTIVITIES

Our commitment to providing a rich and well-rounded student life for our students is evident by the clubs and activities we offer as a complement to our academic program.

Clubs and activities are as essential as academic preparation to leading a fulfilling life, fostering social engagement, and helping students to develop leadership skills. At BASIS Independent Silicon Valley, we rely on students to both participate and to guide the offerings: first by inviting them to share their interests, and later by encouraging them to develop programs where they see a need.

2016–17 Achievements

- › The Silicon Valley debate team took 2nd place in the Public Forum Debate held at San Francisco State University
- › Multiple wins at The Synopsis Science State Fair Competition
- › Two members of our student-led Neuroscience Club placed 2nd and 3rd place at the Regional Brain Bee competition
- › Nine students placed in the top 25 percentile at MATHCOUNTS
